

EUROPEAN FEDERATION OF CLINICAL CHEMISTRY
AND LABORATORY MEDICINE

CARMAGUE 2022

**REMINDER OF EFLM/ESC SURVEY
JULY 01, 2022**

Dear colleague,

The EFLM Working Group Cardiac Markers has performed several surveys on the use and implementation of cardiac markers in European countries, US and Canada. The results of the previous surveys (2006, 2010, 2013, 2019) have been published in several articles.

EFLM Working Group Cardiac Markers has started collaboration with European Society of Cardiology (ESC) in order to have also clinician view for the use and implementation of cardiac markers. This present survey is a joint project with the International Federation of Clinical Chemistry and Laboratory Medicine (IFCC), the Association for Acute CardioVascular Care (ACVC) and the European Society for Emergency Medicine (EUSEM).

We would like to invite you to participate in this international survey exploring the use of biomarkers in the diagnosis of myocardial injury. You are being invited to participate in this survey because of your expertise in this field. The original survey was distributed in February 2022 (Invitation letter attached). **Those who have already completed the survey, please, ignore this reminder. Thank you for your contribution.**

This survey is being hosted by the University of Edinburgh. The survey can be completed within 10 minutes and can be accessed here:

<https://edinburgh.onlinesurveys.ac.uk/international-use-of-cardiac-biomarkers-for-the-diagnosis>

DEADLINE EXTENDED

We kindly ask you to complete the survey by August 31, 2022.

We would like to thank you in advance for your time and contribution to this work.

Yours Sincerely,

EFLM WORKING GROUP ON CARDIAC MARKERS:

Kristin Aakre
Hanns Jörg Baum
Paul Collinson
Christopher Duff
Damien Gruson
Angelika Hammerer-Lercher
Michel Langlois
Kari Pulkki
Sanja Stankovic

Dear Sir/Madame

We would like to invite you to participate in this international survey exploring the use of biomarkers in the diagnosis of myocardial infarction. You are being invited to participate in this survey because of your expertise in this field.

This survey is being hosted by the University of Edinburgh on behalf of the European Federation of Clinical Chemistry and Laboratory Medicine (EFLM), the International Federation of Clinical Chemistry and Laboratory Medicine (IFCC), the Association for Acute CardioVascular Care (ACVC) and the European Society for Emergency Medicine (EUSEM).

The survey can be completed within 10 minutes and can be accessed here: [International use of Cardiac Biomarkers for the Diagnosis of Myocardial Infarction](#).

If wishing to participate please submit your responses before March 5th 2022.

We would like to thank you in advance for your time and contribution to this work.

Yours Sincerely,

Adjunct Professor Päivi Laitinen
European Federation of Clinical Chemistry and Laboratory Medicine

Professor Fred Apple
International Federation of Clinical Chemistry and Laboratory Medicine

Professor Christian Mueller
Association for Acute CardioVascular Care

Professor Rick Body
European Society for Emergency Medicine

Professor Nicholas Mills
University of Edinburgh
